As a member of the public using products in the field covered by the recent & lengthy litigation of this case, I urge you to finalize the settlement reached last year. It was evident that much hard work and "give" took place on both sides of the dispute and this is appreciated. It was also evident that this anti-trust case had a severe impact on the technological economy and on product innovation that affects consumers. Please, let's lift this burden with a swift conclusion to the matter in accord with the terms of the settlement.
